Velocity Ankle Brace L1971

Velocity represents an evolution in ankle brace technology, utilizing several new, proprietary design features, resulting in a new level of ankle brace performance and providing the foundation for successful ankle injury prevention and treatment. The Velocity ES has a foot and ankle speed wrap to apply compression for acute ankle injuries and to control inflammation.

- INDICATIONS:**
- Acute ankle sprains
 - Chronic ankle instabilities
 - High ankle sprains, or prophylactic use

ITEM DESCRIPTION: L1971 Ankle foot orthosis, plastic or other material with ankle joint, prefabricated, includes fitting and adjustment

- FEATURES:**
- Recommended to help prevent high ankle sprains, abnormal inversion/eversion and protection of ankles during impact sports
 - R3 (Rapid-Rigid-Ratcheted) provides tibia/fibula compression
 - Rigid uprights protect during impact
 - Bilateral hinges are anatomically oriented to allow natural unrestricted motion
 - Foot plate is anatomically contoured and sized to control the first ray
 - Foot plate is heat moldable and trimable to match shoe insoles or orthotics
